**NNK13477178R - Replace Air Handling Units (AHU) at Booster Fabrication Facility (BFF), PCN: 98889.2a**

**A. Answers to Bidder's Questions**

**1. Reference:** Storage of Air Handler Units

**Question:** I did not see in the solicitation a laydown area for the storage of the new air handling units. We assume that the Government will designate an area near the jobsite in the parking lot to allow for the storage of the new air handling units. Please confirm.

**Answer:** The government will provide an area near the facility and outside of the loading dock. Final location will be determined with coordination between the Government, Facility Manager and Contractor.

**2. Reference:** Section 01 91 00 Commissioning

**Question:** Under the specification "Section 01 91 00 Commissioning", there are very descriptive requirements for commissioning of the project. It also mentions that the Commissioning Agent (CxA) services will be provided by a government led team. Can you clarify as to whether there is already a commissioning agent/team in place or if this would have to be provided by the contractor and led by the government?

**Answer:** A CxA commissioning agent will be provided by the Government, led by the Government and in place during construction. The General Contractor (GC) and sub-Contractors is part of the Commissioning (Cx) team with roles and responsibilities outlined in Section 01 91 00 Commissioning.

**3. Reference:** Specification 23 05 15, Part 2.2 Pipe Specialties

**Question:** Specification 23 05 15, Part 2.2 Pipe Specialties reflects components required to make up a coil connection (i.e. ball valves, strainers, circuit setter/balancing valve, gauges, flex hoses, etc.) Can coil combination kits similar to Nexus A2FY & A3Y attached be used in lieu of individual components to make up the coil piping per schematic on M-301 detail ME?

**Answer:** Yes. Individual components within the assemblies (combination kits) shall comply with all aspects of the specification and be installed in the exact configuration as shown on detail ME, M301.

**4. Reference:** N/A

**Question:** Can we use Electrical Metallic Tubing (EMT) conduit for low voltage controls as per previous jobs?

**Answer:** Yes

**5. Reference:** N/A

**Question:** We need to know if we can look at the job again to find route from UC-23 to purge dampers in room M-109A.

**Answer:** A follow up site visit will not be conducted. Reference sheet V-04 for floor plan layout.

6. **Reference:** N/A

**Question:** Does UPC-25 need a new enclosure since there is another panel tied into it already? It has an (Input/Output) I/O module in it with room for three more.

**Answer:** No, a new enclosure is not required. Space in adjacent panel may be used.

Unlisted classifications needed for work not included within  
the scope of the classifications listed may be added after  
award only as provided in the labor standards contract clauses  
(29CFR 5.5 (a) (1) (ii)).

-----  
The body of each wage determination lists the classification  
and wage rates that have been found to be prevailing for the  
cited type(s) of construction in the area covered by the wage  
determination. The classifications are listed in alphabetical

order of "identifiers" that indicate whether the particular rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters , PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable , i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

#### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

-----

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter

\* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
